## World's Greatest Library

John Gunther, the writer of the world famous book **Inside Asia**, writes in his book that Baba Saheb's library was the largest among the world's private ones. His library had books on all subjects. The books in his library were not just show pieces, he had studied all of them. This was the sign of his immense knowledge. John Gunther goes on to assert that whatever he is doing for the untouchables of India will not find a parallel in any part of the world.
